

# Gas barriers

Gas barrier is used when there is need to block the air in the cable or to set up air channel around the component which does not seal or is not dedicated for sealing.

Gas barrier is manufactured from high quality silver-plated brass and provide excellent sealing.

Standard		Code	Dimensions (mm)		Gas inlet (fi)
339 IEC	EIA		A	B	
50-40	1 5/8"	48587	27,6	16,9	6
50-80	3 1/8"	48436	24,6	33,4	6
50-105	4 1/2"	48501	24,2	44,8	6
50-125	5"	48582	24,2	52	6
50-155	6 1/8"	48576	23	66	6
